Volume 93 2018 No.1 & 2

Special Theme
REMOTE SENSING

Guest Editor
Dr. V. RAGHAVASWAMY
National Remote Sensing Centre, ISRO, Hyderabad, India

EDITOR: K.KUMARASWAMY

The Indian Geographical Society
Department of Geography
University of Madras
Guindy Campus
Chennai-600 025, India

Governing Council of The Indian Geographical Society

President: Dr. K. Devarajan

Vice Presidents: Dr. P. Ilangovan
Dr. B. Hema Malini
Dr. H.N. Misra
Dr. R.B. Singh
Dr. R. Vaidyanadhan

General Secretary: Dr. R. Jaganathan

Joint Secretaries: Dr. R. Bhavani
Dr. R. Shyamala
Dr. J. Uma
Dr. R. Jegankumar

Treasurer: Dr. V. Madha Suresh

Council Members: Ms. R. Valli
Dr. S.R. Nagarathinam
Dr. S. Balaselvakumar
Dr. P.H. Anand
Mr. G. Jagadeesan
Dr. N. Subramanian
Mr. C. Subramaniam

**Member Nominated to the
Executive Committee from the Council:** Dr. S.R. Nagarathinam

Editor: Prof. K. Kumaraswamy

Guest Editor: Dr. Vaddiparti Raghavaswamy is a Graduate in Geography from Delhi University, Delhi; Masters in Geography with specialization in Aerial Photo-interpretation, Remote Sensing and Geomorphology from Andhra University, Waltair and PhD in Urban & Regional Studies from Andhra University. He holds certificate in Terrain-Geomorphic Applications and in Urban Drainage Management Techniques from IIT, Mumbai. Attended course on Remote Sensing in Rural Development from DSE Food and Agriculture Development Centre, Germany. He joined, erstwhile, NRSA/DOS, Hyderabad in as Scientific Assistant and served as Deputy Director (Remote Sensing and GIS Applications & Training), now NRSC/ISRO, Hyderabad. He received Young Scientist Award from AP Academy of Sciences; Indian National Remote Sensing Award from ISRS; RN Dubey Memorial Award from Bhoovigyan Vikas Foundation; Bhoogol Bhushan Scientist Award and Life Time Achievement Award from Deccan Geographical Society. A Fellow of Bhoovigyan Vikas Foundation, New Delhi. He was Member of Research Council of National Centre for Earth Science Studies of DST, Government of India at Thiruvananthapuram and ISRO-IISc, Joint Scientific Committee Bangalore. He has authored and published five Books including Meta Data Directory on LUCC for COSTED/ICSU, Chennai. He is a member of several Professional Bodies and Task Committees of Central Ministries. He served as an Advisor to CGARD of NIRD & PR, Hyderabad. He is a visiting Faculty Member at JNTUH, ASCI, TISS and assists HMDA and APMDP, Hyderabad, India. **E-mail:** vraghavswamy@yahoo.com, **Mobile:** 094404 07060

Authors, who wish to submit their papers for publication in the Indian Geographical Journal, are most welcome to send their papers to the Editor only through e-mail: editorigs1926@gmail.com

Authors of the research articles in the journal are responsible for the views expressed in their articles and for obtaining permission for copyright materials.

For details and downloads visit: www.igschennai.org

Information to Authors

The Indian Geographical Journal is published half-yearly in June and December by The Indian Geographical Society, Chennai. It invites manuscripts of original research on any geographical subject providing information of importance to geography and related disciplines with an analytical approach. The article should be submitted only through the Editor's e-mail: **editorigs1926@gmail.com**

The manuscript should be strictly ordered as follows: Title page, author (s) name, designation, e-mail ID, and telephone number, abstract, keywords, text (Introduction, Study Area, Methodology, Results and Discussion, Conclusion), Acknowledgements, References, Tables, Figures. You may refer IGS website (www.igschennai.org) for reference.

The title should be brief, specific and amenable to indexing. Not more than five keywords should be indicated separately; these should be chosen carefully and must not be phrases of several words. Abstract and summary should be limited to 100 words and convey the main points of the paper, outline the results and conclusions and explain the significance of the results.

Maps and charts should be submitted in the final or near-final form. The authors should however agree to revise the maps and charts for reproduction after the article is accepted for publication. Each figure should have a concise caption describing accurately what the figure depicts.

If you include figures that have already been published elsewhere, you must obtain permission from the copyright owner(s) for both the print and online format. Please be aware that some publishers do not grant electronic rights for free and that IGS will not be able to refund any costs that may have occurred to receive these permissions.

Acknowledgements of people, grants, funds etc. should be placed in a separate section before the reference list. The names of funding organisations should be written in full.

References should be listed in alphabetical order, serially numbered at the end of the paper as per MLA format. The list of references should only include works that are cited in the text and that have been published or accepted for publication.

The manuscripts should be accompanied with a letter stating that the article has not been published or sent for publication to any other journal and that it will not be submitted elsewhere for publication. Further, the authors could also send name and address with e-mail ids and phone number of four referees to review the article.

Contents

Volume - 93 Number - 1

June, 2018

Page No

Spatial Autocorrelation Technique for Landslide Hot-Spot Analysis in the Upper Ravi River Catchment, Chamba, Himachal Pradesh

Pooja Sharma, Vishwa Bandhu Singh Chandel and Simrit Kahlon

Remote Sensing And GIS Based Study on Land Capability Assessment for Sustainable Crop Development in Sarada Basin, Visakhapatnam District, Andhra Pradesh

Nooka Ratnam K. and Murali Krishna G.

Site Suitability Analysis for Solid Waste Disposal Using Remote Sensing And GIS - A Comparison of Knowledge Guided Fuzzy, Index Overlay and AHP Models

Manindar Pandiri, Das, I.C., Prasada Rao P.V.V, Jhaa C.S., Vinod Kumar, Rao P.V.N. and Dadhwal V.K.

Geospatial Analysis of Land Use/Land Cover Change with Special Reference to Environment in Andal, West Bengal - A Case Study

Kuntal Ganguly, Manoj Raj Saxena and Ravi Shankar G.

Conjunctive use of Aster Dem, LANDSAT (ETM Plus) Satellite Data and Topographic Maps for Morphometric Analysis of Jamuna Watershed, Kopili River, Assam

Himadree Borah and Sujit Deka

Quantitative Analysis of Land Use Change using Remote Sensing and GIS Techniques in Guntur Urban Mandal, Andhra Pradesh State

Tata Babu Ch., Vanajakshi M. and Ramana K.V.

Morpho-Dynamic Assessment of Raidak River-II Confluence With Help of Geospatial Techniques

Ajit Kumar Singh and Ishwarjit Singh E.
